

VENICE YMCA PILATES REFORMER STUDIO

To give our members the variety a successful exercise program needs, we are proud to have brought Pilates Reformer training to the Venice Family YMCA. The Pilates studio is located upstairs and houses 5 Pilates Reformers, allowing us to offer both group classes, private and semi-private instruction. Our certified instructors are able to instruct all fitness and skill levels, from beginners to people who have been doing Pilates for years. The Pilates program focuses on the core and postural muscles, building up the abdominals, obliques and back muscles to support the spine. Pilates exercises teach awareness of breath and alignment of the spine and aim to strengthen the deep torso muscles. You will get a total body workout, developing long, lean muscles and a flatter midsection, all while improving your flexibility.

A free intro class is offered to introduce members to the Reformer, and to provide the basics on how this type of exercise works. Regular classes are offered Monday through Friday. Register for a regular monthly class or drop-in to any class where there is availability if you have a free hour in your day. Class schedules, as well as the classes available for drop-ins, are posted on the Pilates board. Stop by and check out our classes, and learn some valuable information about this innovative fitness trend.
